

WISCONSIN ELECTRIC POWER COMPANY

Volume 19 – Electric Rates

Revision 6 Sheet 133

Amendment No. 762

Effective In All Areas Served In Wisconsin

Rate Schedule CGS 2

CUSTOMER GENERATING SYSTEMS (CGS) -- 20 KW OR LESS

AVAILABILITY

To customers owning generating systems with an aggregate rating of 20 kW or less who desire to sell electrical energy to Wisconsin Electric Power Company and are on a flat rate. For the purposes of this schedule, Company is defined as Wisconsin Electric Power Company and customer is defined as the person or corporate entity who desire to sell electrical energy to the Company. Customers on this rate are not eligible for Budget Billing. THIS RATE CLOSED TO NEW ACCOUNTS.

Customers on this rate schedule as of October 7, 2014 and customers who filed a Distributed Generation Application as of October 7, 2014, will continue to receive service under this rate schedule until December 31, 2024. Customers who take service on this rate schedule after October 7, 2014, and customers who filed a Distributed Generation Application after October 7, 2014, may remain on this rate schedule until December 31, 2015. Effective with the first billing cycle ending after January 1, 2016, customers not grandfathered will be transferred to the COGS-NM tariff, unless the customer notifies the Company they prefer to be transferred to another of the Company's available customer generating tariffs.

RATE

Facilities Charge

No additional facilities charge is assessed to customers taking service on this rate schedule.

All customers must pay the monthly facilities charge applicable to their class of service, even during those months when energy supplied to the Company exceeds the energy consumed.

Energy Rate

- (a) The electric meter will be allowed to run backwards when the customer's generation facilities are producing energy. In this case, the customer would be billed for the net amount of energy consumed during the month at the regular applicable rate schedule as a purchaser of energy from the Company.
- (b) Subject to the Cost of Fuel Adjustment. See Sheet Nos. 19 and 20.

If the amount of energy supplied to the Company exceeds the amount of energy consumed during a billing period, the customer will receive a credit on his bill equal to the net excess kilowatt hours of energy received by the Company multiplied by the Appropriate Energy Purchase Rate (shown on Sheet No. 134) including any applicable adjustment for cost of fuel. The customer will receive a check for the amount of the credit whenever it exceeds \$25.

(Continued to Sheet No. 134)

Issued: 12-7-15

Effective: For service furnished on and after 1-1-16

PSCW Authorization: Docket No. 05-UR-107 Order dated 12-23-14

Volume 19 – Electric Rates

Revision 3 Sheet 134
Amendment No. 738
Rate Schedule CGS 2

Effective In All Areas Served In Wisconsin

CUSTOMER GENERATING SYSTEMS (CGS)-- 20 KW OR LESS

(Continued from Sheet No. 133)

- (a) If customer generation is non-renewable fueled and without Time-of-Use meters, the Customer will be paid a rate equal to 35% of the On-peak plus 65% of the Off-peak CGS 1 rate.
- (b) If a customer is on a non-renewable and time-of-use rate, then this customer receives the CGS1 rate.
- (c) Customers with a renewable energy generating source will be paid the Customer's Energy Rate. A renewable energy generating source is defined as one which generates electricity using any of the following:
 - Solar photovoltaic
 - Wind power
 - Fuel cells utilizing renewable fuels
 - Landfill gas
 - Hydroelectric generators (defined as facilities of 30 MW or less and in compliance with federal and state regulations)
 - Biomass generators using fuels such as wood, agricultural or food wastes, energy crops, biogas, biodiesel, or organic refuse-derived fuel. Biomass generators **do not** include energy from incineration of tires; garbage; general household, institutional and commercial non-wood waste; industrial lunchroom or office waste; landscape waste; or chemically contaminated construction and demolition debris.

If a customer has both a renewable and a non-renewable generator on site, in order to collect at the renewable energy rate, the customer must have separate meters installed on the renewable generator(s), and non-renewable generator(s).

Customer's Energy Rate is the rate the customer would be charged for energy if the customer were only a purchaser of energy, and were not on the CGS rate.

Minimum Charge

The monthly minimum charge is the applicable facilities charge.

Late Payment Charge

A one percent (1%) per month late payment charge will be applied to outstanding charges.

CONDITIONS OF PURCHASE

See Sheet Nos. 135 through 138.
